Policy Document on Environment and Energy Usage

The environment and energy usage policy of Shankarrao Jagtap Arts and Commerce College Wagholiis to manage energy in such a systematic way so as to minimize its impact on the environment.

The policy implies exploring renewable energy resources to reduce the burden of the government and to find out substitute natural resources as a solution to the energy crisis.

This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into our everyday activities, this helps us to realize our responsibilities and commitment to the conservation of natural resources and limit their usage. The ENVIRONMENT CLUB, an official platform devoted to the cause of environmental awareness, undertakes green initiatives and conducts green literacy programs to save energy and to protect the environment.

Policies

- to assess our energy usage and measure its impact on the environment
- To reduce our pollution emissions using environment-friendly Vehicles, including bicycles, public transportation, and use of pedestrian-friendly roads.
- To install LED Bulbs in the complete campus to save energy.
- To develop systematic waste management mechanism.
- To develop rain water harvesting unit
- To undertake tree plantation drive.
- To take additional measures to continuously improve our energy consumption.
- To develop and maintain an environmental management system
- To ensure the availability of necessary resources to achieve our objectives
- To encourage use of advanced technology to minimize energy consumption and atmospheric emissions and noise particularly from our vehicles fleet.
- To Engage dialogue with government agency, and the affiliating university and actively work with local organization in the areas of environment energy efficiency and sustainable development.
- To monitor and respond to emerging environmental and energy issues
- To strengthen our employee's and students' environmental knowledge and skills in order to improve our own environmental performance.
- To provide information and training a person on energy saving measures.
- To offer opportunities for employees students to encourage initiatives that contribute to environmental protection

- To train our employees and students through our Environment club to make them Go Green Specialists and partner to plant trees each year.

This policy will be communicated to students and employees via internal communication channels and will be made available to all stakeholders on the institutional website. The environment and energy policy objectives and targets will be revealed pre waved on regular basis by the Enviro Club Convener and its member under the guidance of Principal of college.
